Containment measure and recruitment

COVID-19

Covid19 - Containment measure and recruitment

Due to the present emergency (Covid 2019 Pandemic), and following the recent announcements by the French President of the Republic - calling for the closure of all schools and higher education institutions - ENTPE has suspended until further notice all research, teaching and curricular activities taking place on site.

Most courses are now being provided through distance learning platforms.

Please note that extracurricular events have also been suspended or delayed.

However, research and administrative activities continue at a distance. Feel free to contact them by email, for more information about your project (research, events, etc…).

>> Recruitment

ENTPE is maintaining its 2020-2021 recruitment campaign and schedule. See "Admission requirements" page.

Admission information for international candidates can be requested at international.student@entpe.fr

Please keep our website monitored for updates.
